III. Principal areas of concern and recommendations

A. General principles and obligations (arts. 1–4)

5. The Committee is concerned about measures to ensure the effective implementation
of the Convention and, the delay in the process to amend the Persons with Disabilities Act
2003. It also observes with concern that derogatory terminology against persons with
disabilities persists in the Constitution and in other pieces of legislation such as the Local
Government Act, the Election Act, the Mental Health Act, and the Marriage Act.

6. The Committee calls upon the State party to:

   (a) Complete as a matter of priority and within a specific timeframe the
process to review the Persons with Disabilities Act 2003 and bring it into line with the
provisions of the Convention and the human rights-based approach to disability;

   (b) Ensure adequate processes in the Parliament to enact various bills
regarding the rights of persons with disabilities pending approval;

   (c) Adopt measures to amend and/or repeal legislation with derogatory
terminology against persons with disabilities; and

   (d) Raise awareness among members of Parliament with regard to the
Convention and convey their involvement in implementing the Committee’s
concluding observations.

7. The Committee observes with concern the absence of specific legal and policy
frameworks for implementing the Convention at county and municipal levels. It is also
concerned about the lack of mechanisms to ensure permanent and formal consultation with
organizations of persons with disabilities in processes to enact legislation, and in the
discussion and adoption of public policies both at the national level and in the county level.

8. The Committee recommends that the State party:

   (a) Adopt measures to ensure that county governments and all local
authorities allocate budgetary resources and establish action plans to implement the
Convention with targets and indicators to monitor their results; and

   (b) Establish formal mechanisms and protocols, at the national, county and
municipal levels and conduct consultation with organizations representing persons
with disabilities, in line with the State party obligations in article 4.3 of the
Convention, including the required financial resources; and promote the meaningful
participation of organizations of persons with disabilities in both rural and urban
areas.

B. Specific rights (arts. 5–30)

Equality and non-discrimination (art. 5)

9. The Committee is concerned that mediation and conciliation prevail on claims by
persons with disabilities. It is also concerned about the absence of information on the
definition of reasonable accommodation and that the denial of such accommodation is not
considered a form of discrimination.
10. The Committee recommends that the State party:
   (a) Enforce measures to ensure that cases of discrimination against persons with disabilities are invocable before courts and victims receive appropriate redress; and
   (b) Define in its legislation the principle of reasonable accommodation in all areas in line with article 2 of the Convention, and ensure legal recognition of the denial of reasonable accommodation as a form of discrimination.

Women with disabilities (art. 6)

11. The Committee is concerned about the multiple forms of discrimination faced by women with disabilities and the absence of measures to prevent and combat different forms of discrimination against them. It is also concerned about the lack of information on public policies and programmes on gender equality that include the rights of women and girls with disabilities.

12. The Committee recommends that the State party:
   (a) Systematically collect data and statistics on the situation of women and girls with disabilities living in rural and urban areas, belonging to ethnic minorities and pastoralist communities;

It is also concerned about the institutionalization of children with disabilities and the prevalence of residential care. It observes with concern the absence of information on the situation of deaf, blind and deaf-blind girls and boys and about measures to ensure their protection and inclusion in society. The Committee takes note of the creation of children assemblies in 47 counties. Nevertheless, it is concerned that children with disabilities in particular in rural areas are not systematically involved in decisions that affect their lives.

Awareness-raising (art. 8)

15. The Committee welcomes the information on awareness raising activities to public officials. However, it is concerned about stigmatization of persons with disabilities in society that hinder the exercise of their rights. It is also concerned that persons with psychosocial and/or intellectual disabilities are disproportionately affected by stigma which limits their access to education, health and employment.

16. The Committee calls upon the State party to set up a long-term strategy aimed at raising awareness and combating discrimination against persons with disabilities among the public in general, in rural and urban areas, including all aspects covered by the Convention.
